

SMARTPOOL ELECTRONIC PRODUCTS
Six Month Limited Warranty

ALL WARRANTY CLAIMS MUST BE HANDLED DIRECTLY WITH SMARTPOOL. DO NOT RETURN TO YOUR DEALER. SMARTPOOL ACCEPTS CLAIMS FROM POOL OWNERS ONLY.

SmartPool, Inc. warrants to the original purchaser of the ELECTRONIC PRODUCT that the company, at its option, will replace any product that proves to be defective either in workmanship or material upon prepaid return of the product by the owner. SmartPool will, at its sole option, either repair the product at a nominal charge or replace the product. All repaired or replaced products will be returned at the homeowner's expense.

SIX MONTH PRODUCT WARRANTY

Six month limited warranty from date of purchase for manufacturing defects under normal use and service and installed according to the instruction manual. This warranty is subject to the terms, limitations and exclusions described below and no other warranties, express or implied are understood.

What is covered: The product itself, including electronics, electrical components and housings are warranted to be free from defects in material and workmanship when leaving the factory.

What is not covered: Product damaged by improper installation or maintenance. Batteries (if applicable). The product is not warranted against damage due to improper draining, winterizing, storage or acts of God. Consequential damages and labor are excluded from this warranty. Claims will not be accepted for products damaged in transit unless damage to shipping container is noted at time of delivery on transport companies' delivery bill. No performance or satisfaction guarantee is claimed by SmartPool on this product. It is the responsibility of product owner to regularly test and check product for function and safety.

What you must do to file a claim:

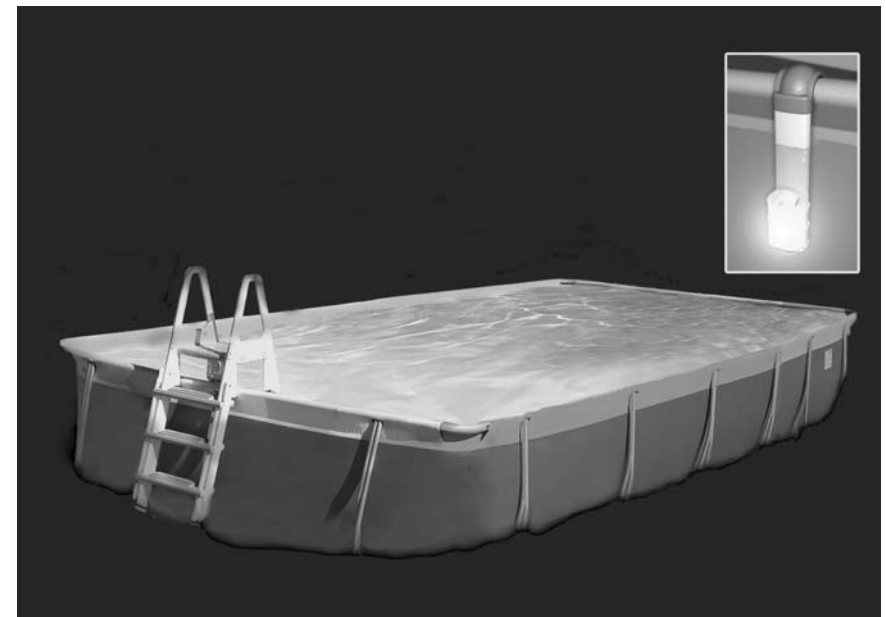

- 1) Call 1-888-560-7665 to initiate a claim.
- 2) You will receive an instruction package within 10 days.
- 3) Please allow 2-4 weeks for warranty claims to be settled.
- 4) If you do not receive your product within 6 weeks, please call SmartPool Warranty Department between 1pm-4pm Monday through Friday EST. Call TOLL FREE 1-888-560-7665.

This warranty gives the original consumer purchaser specific legal rights. You may have other rights depending on the state in which you live.

NITELIGHTER™

"Ultra" Underwater Lighting System for Framed Soft-Sided Pools

Model NL52

Installation/Operation manual/Warranty

1. Hang the light fixture onto the rail of your pool, as shown. Keep the light fixture vertical. Make sure the top of the clear lens is at least 3 inches below the water level.

1

2

2. Hold the smaller metal piece against the underside of the rail and push up; then tighten up the 2 screws that hold the 2 pieces together.

3

3. Adjust the 2 hex socket head set screws until the metal clamp grips the rail tightly.

Slide the smaller plastic up and attach it to the lower part of the metal clamp by the 4 smaller screws. Tuck the wire in the trough of the metal clamp.

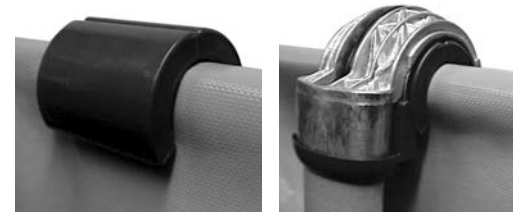

4

4. Cover the metal clamp with the plastic cap. Push it down until it fits snugly with the light fixture.

You may bury the wire in a shallow slot in the ground to hide it but would allow for easy removal.

The transformer should be mounted to a convenient surface. Mount the transformer off the ground approximately 18 inches using the keyhole slot in the casing.

Plug only into a 110V outlet protected by a ground fault circuit interrupter.

NOTE:

For smaller diameter rails, place the small rail adapter (provided) onto the rail prior to hanging the metal clamp (see accompanying picture).

Operation:

Operate only when the light is submerged in water.

After plugging in, push the rubber button to activate. Rotate the knob on the transformer to use high or low setting. The light automatically turns off in approximately 3 hours for convenience and longevity.
